PROFILE

I see software development as a tool to combine my love of creating cool things with my responsibility to work towards a more equitable future, and seek engagements that prioritize accessibility & inclusivity along with innovation.

Outside my work in the tech sector, my background in linguistics provided me with practical experience in both logical and humanist thinking, and my academic accomplishments demonstrate that I execute top quality work. Complementing these hard skills is an extensive background in customer service, which cultivated my ability to identify and meet interpersonal needs, and form lasting positive relationships.

My colleagues know me as an excellent communicator, initiative-taker, thorough problem solver, and big fan of jokes.

SKILLS

Strong: HTML, CSS, SCSS, JavaScript, TypeScript, Angular, React, Firebase, REST APIs, Node.js, Express, Git, GitHub, Figma, Jira, Agile
Moderate: RxJs, Flutter, Dart, SQL, User Auth, OAuth, Heroku
Learning: Next.js, Redux, GraphQL

EXPERIENCE

Comprehensive list on [LinkedIn](#)

Full-stack Developer | Cedulify Inc.

AUG 2022 - Present, REMOTE/MONTREAL, QC

- Developed and maintained dynamic & responsive web application using Angular, TypeScript, SCSS, Node.js, Firebase; supported mobile development as needed using Flutter and Dart
- UX & UI design including wireframes, hi-fi mockups, copywriting
- Worked closely alongside stakeholders, designers and fellow developers to facilitate a seamless workflow from initial vision to design concepts and actionable technical specifications
- Participated in code reviews, design reviews, and discussions on architecture to ensure best practices and high quality product
- Designed and implemented RESTful APIs to facilitate data exchange
- Integrated third-party APIs such as Stripe and Meta Conversions
- Showed initiative in facilitating Agile development processes, daily stand-ups, sprint planning, and reviews
- Thrived in a fast-paced startup environment, effectively multitasking and adapting rapidly changing business conditions and priorities
