Profile

Web developer and design enthusiast with excellent communication, desire to learn, and knack for building community. Looking to make a positive impact with a great team of like-minded folks.

Work Experience

WEB DEVELOPER, SOMA CREATIVE STUDIO – 2020-PRESENT

- On freelance contracts, I design and develop websites with modern, engaging, intuitive interfaces that attract users, optimize UX, add functionality, enhance accessibility, and increase client sales

- I work collaboratively with clients through branding exercises, design feedback and iterations, and smooth hand-off of the website after deployment

- Tools & Technology: Figma, React, Next.js, HTML, CSS, Tailwind, Node.js, MongoDB, Heroku, AWS, Squarespace, Wix, GoDaddy, G-Suite

SOFTWARE ENGINEER - FULL-STACK WEB DEVELOPER, CEDULIFY – AUG 2022-SEPT 2023

- Front-end: Learned new tech stack to develop this responsive web application with dynamic features including onboarding, payments, calendars, localization, and secure admin panel for product owners to safely manage content and users; contributed to design processes including user stories, wireframes, hi-fi mockups, prototyping, and copywriting

- Back-end: Designed and implemented RESTful APIs to facilitate efficient data exchange between client and server; optimized user authentication with Firebase to minimize registration errors, eliminate redundancies, and maximize code readability

- Facilitated Agile workflow, leading daily stand-ups, sprint planning, and sprint reviews; thrived in fast-paced startup environment, effectively multitasking and adapting to rapidly changing business conditions and priorities

- Tools & Technology: Angular, TypeScript, JavaScript, HTML, CSS, Node.js, Firebase, Flutter, Docker, GitHub, Jira, Figma, G-Suite, Slack

RESEARCH ASSISTANT, UNIVERSITY OF VICTORIA – MAR 2021-APR 2022

- Transcribed audio files accurately and efficiently for linguistic research purposes, maintaining high level of attention to detail and ensuring integrity of data, utilizing various software programs

- Collaborated with other researchers to adapt to project requirements, ensure best practices, and improve overall workflow of the team through proactive communication

Education

BrainStation, Vancouver BC – Diploma in Web Development 2022

University of Victoria, Victoria BC – Bachelor of Arts in Linguistics 2022
